Resident Spotlight

Betty is truly one of the sweetest little rays of sunshine at Hope Landing. With her gentle smile and kind presence, she brings warmth to everyone around her.

Each day is made extra special by visits from her devoted husband, Jim, and her beloved dog, Bella, something both staff and residents look forward to seeing. Betty may be soft-spoken, but she's a quiet social butterfly who loves to chat and connect, always ready with a friendly conversation and a warm heart.

We're so grateful to have Betty as part of our Hope Landing family. She reminds us that sometimes the sweetest moments come from the simplest connections.

Notes from Joel

A new year often brings a lot of talk about resolutions and big changes. But as I've reflected this month, I've been reminded that meaningful growth rarely happens all at once. More often, it happens through steady, faithful steps taken day after day.

Here at Hope Landing, I've seen that lived out in simple ways; through consistency, patience, and care that doesn't seek attention but makes a real difference. As we move into 2026, my hope is that we continue to be a place where people feel known, supported, and at peace.

Thank you for trusting us with your loved ones and for being part of this community.

— Joel
